Technology In Society

Subject/Title Index to Volume 17, 1995

Agency for International Development, 35
agriculture, 17, 437
An Analytic Framework With Which to Consider Society's Response to New Technologies: The Automobile as a Case in Point, 215
automobile, social and technological history, analytic framework, markets, policies, 55, 215, 453

biotechnology, 437

Can Research and Development Recover in Russia? 121
Concept of Sustainable Development: Its Origins and Ambivalence, 311
corporate strategy and technology policy, 413
Conversion Activities in the Russian Weapon Laboratories, 239
courts, Science & Technology Resources for, 1

Debating the Car in the 1960s and 1990s: Similarities and Differences, 453
Denmark, innovation policy, 413
development, sustainable, 311, 327
Does Philosophy Matter? 295

economic growth and development assistance, 35, 311, 327, 429
Emergence of a Mass Market for Fax Machines, 469
Effect of Japan's Advisory Councils on Science and Technology Policy, 159

fax machines, diffusion of, 469

Game Theory (Application of) in Government Strategies for Industrial Collaborative Research and Development, 197
government and industry, collaborative R and D, 197
government, relationship with science and technology, 85

How Much Land Can Ten Billion People Spare for Nature? Does Technology Make a Difference? 17
human resources development, 429

India, science advice in, 349
industrial research, in non-OECD countries, 263
information technology, European, 385
intellectual property and technology transfer, 437
International Agricultural Research Centers: Poised for Change, 437
International Technology Transfer and Development of Technological Capabilities: A Theoretical Framework, 103
irrigation, 17
Israel, trade and technology, 143

Japan, science & technology policy, 159
judicial system, 1

Lessons from Eight "Reform Commissions" on the Organization of Science and Technology in US Bilateral Development Assistance, 35
land population and technology, 17
legal system, 1
Linking Firm Strategy and Government Action: Towards a Resource-Based Perspective on Innovation and Technology Policy, 413

markets, response to new technologies, 55
Mexico, human resources development, 429
Mideast, trade and technology, 143
Myth of Presidential Attention to Space Policy (The), 337

NASA, political support, 337
New Challenge or The Past Revisited? The Office of Technology Assessment in Historical Context, 175
New Global Sources of Industrial Research, 263

Office of Technology assessment, historical context, 175
Open Microprocessor Initiative, European, 385
organization, for US bilateral development assistance, 35
organizational behavior and socialtechnical alignment, 385
Organizational Competence: Know-How and Skills in Economic Devlopment, 429

parallax, technological, 365
Peace, Trade and Technology in the New Mideast, 143
Pfaffenberger, Bryan, theory of technological diffusion, 215
philosophy, concept of sustainable development, 311, 327
philosophy, technology, & culture, 295
population, land, and technology, 17
Procedural Choices in Regulatory Science, 279
public participation in science policy-making, 85

regulatory science and policy, 279
Russia, research and development recovery of, 121
Russian weapon laboratories, 239

Science Advice in India, 349
Science, Technology, and Government: Re-examining the Relationship, 85
Science and Technology Resources for the Courts, 1
Sociotechnical Constituencies as Processes of Aligment: The Rise of a Large-Scale European Information Technology Initiative, 385
space policy, 337
Statement on Technique and Society, 231
Structure and Dynamics of Technological Systems: A Conceptual Model, 365
sustainable development, 311, 327
systems of innovation, national, 365

technology diffusion and markets, 55, 469
technology, importing, 103
technologies, new, shaped by markets, 55
technology policy, in Japan, 159
technology transfer, international, 103
telephony, early evolution, 55

World That Changed the Machines (The): A Marketing Perspective on the Early Evolution of Automobiles and Telephony, 55

Author Index to Volume 17, 1995

Alic, John A., 155
Autio, Erkko, 365

Borgmann, Albert, 295

Chiang, Jong-Tsong, 197

Ellul, Jacques, 231

Fusfeld, Herbert I., 263

Gautschi, David A., 55
Gerjuoy, Edward, 1

Hameri, Ari-Pekka, 365
Handberg, Roger, 337

Illich, Ivan, 231

Jamison, Andrew, 453
Jasanoff, Sheila, 279
Johnson-Freese, Joan, 337

Kunkle, Gregory C., 175

Luijf, Reginald, 327

Maital, Shlomo, 143
Mitcham, Carl, 311
Molina, Alfonso H., 385
Moore, George, 337

Peterson, M.J., 469

Sabavala, Darius-Jal, 55
Schweitzer, Glenn E., 121, 239
Sikka, Pawan, 349

Tanaka, Yoichi, 159
Tatum, Jesse S., 85
Tengstrom, Emin, 215
Tijmes, Pieter, 327

Waggoner, Paul E., 17
Wagner, Cynthia K., 437
Wegloop, Philip, 413
Wei, Liu, 103
Weiss, Charles Jr, 35
